Subject: Enzian Traffic

To whom it may concern,

With the upcoming council meeting for the Enzian, December 7, 2017: I would like to go on record to the fact that Enzian's clients and customers continue to use my semicircular drive at 231 Magnolia Rd and Leslie Terrace (including my side lawn) as their turn around when they miss their entrance. Their should be NONE of their traffic in our neighborhood. Note that I have been in this neighborhood longer. There is no way the Enzian project should pass until the City of Maitland and Enzian can handle all the extra flow of traffic in this neighborhood and on my property.
